

ES SQUARED

'08-'09 Video Catalog

A BRIGHT ARC

A131 (11 minutes)

This video deals with the dangers of working near overhead and underground power lines. It shows, through dramatic footage and computer animation, what can happen if you or someone on your job site accidentally contacts an energized power line.

A GUIDE TO ORCHARD SAFETY

A129 (22 minutes)

Directed specifically towards fruit growers and workers, this video highlights proper use of ladders in pruning and harvesting, pesticide application and safe operation of farm machinery.

ACCEPTING THE RESPONSIBILITY OF SUPERVISION

A135 (15 minutes)

Supervisors have a primary responsibility of managing people in a consistent manner. Setting goals, communicating, following up with feedback and enforcing rules are all responsibilities of supervision. This video highlights points of good supervision and shows that listening and responding are the keys to good supervision.

ACCIDENT PREVENTION IN THE KITCHEN

R117 (10 minutes)

Specifically for the kitchen employee, this program includes food preparation equipment, cleaning equipment, knives, food slicers, electrical safety, chemicals, floors, and other necessary information.

ACCIDENT REPORTING

CS211 (5 minutes)

This program demonstrates the need to investigate accidents and to complete reports properly. It explains the basic form and why the information is necessary.

ACCIDENTS - CAUSES AND PREVENTION

A113 (10 minutes)

This video stresses the fact that accidents don't "just happen". They are the result of unsafe acts and/or unsafe behavior of employees. This program will train the employee on how to reduce accidents and injuries on the job.

ES SQUARED

'08-'09 Video Catalog

ACID BATTERY AND JUMP STARTING

A111 (17 minutes)

Great training tool for anyone working with or handling acid batteries. Explains how a battery is constructed, personal safety, jump starting, and charging batteries.

AMERICAN RED CROSS EMERGENCY TEST

A130 (47 minutes)

How you react in an emergency situation after an accident, flood, hurricane, or during a fire may mean the difference between life and death. This video details fires, falls, choking, severe bleeding and jogging, hiking, and swimming accidents.

ASSISTING DISTRESSED BREATHING/ARTIFICIAL VENTILATION

A134 (5 minutes)

These two dramatized scenes explain the proper emergency procedures to be used during a distressed breathing condition.

BACK CARE

B102 (13 minutes)

Public works and construction employees have special needs for back care. The "old" lift with your legs routine does not always apply. Employees work in mud, rain, snow, and heat. Shoveling, using breakers, tamps, lifting concrete bags, etc. are all tasks that require special training to avoid strain/sprain injuries. This video addresses not only safe lifting techniques, but safe methods for shoveling, breaking pavement and many other tasks directly related to strain & sprain injuries.

BACKHOE AND LOADER SAFETY

B107 (13 minutes)

This video addresses pre-start up maintenance checks, operator safety, driving, riders and digging. It is great for both new and experienced operators alike, as well as employees working around backhoes.

BASIC ELECTRICAL SAFETY

B128 (English - 9 minutes)

B132 (Spanish - 9 minutes)

Electrical hazards effect all employees. This presentation covers the basic electrical hazards including grounding prongs, electrical charges and prevention techniques that all employees need to be aware of. An excellent video for training new and experienced employees.

ES SQUARED

'08-'09 Video Catalog

BLOODBORNE PATHOGENS IN THE WORKPLACE

B131 (8 minutes)

This video is a basic introduction to bloodborne pathogens including the Hepatitis B Virus (HBT) and the Human Immunodeficiency Virus (HIV). Viewers will be educated in the general requirements of the Bloodborne Pathogen standard. Designed as a basic introduction for employees who have little exposure or knowledge of this standard.

BLOWDOWN

B121 (13 minutes)

Blowdown areas should be logged to avoid wasting salable wood and to minimize beetle infestation. Fallers and machine operators with expertise in handling snags are shown safely clearing blowdown.

BONDING AND GROUNDING

B127 (10 minutes)

An excellent program to increase knowledge and awareness relating to static electricity when using and handling flammable liquids. This program explains static electricity and how to properly bond and ground storage containers.

CAFETERIA SANITATION

CS225 (5 minutes)

The health of everyone eating in restaurants/cafeterias depends upon strict adherence to basic sanitation principles. This video covers basic principles, bacterial growth, vector control, temperature controls, serving and storing foods, and hygiene requirements for personnel.

CARPAL TUNNEL SYNDROME

C145 (10 minutes)

Educational program on what carpal tunnel syndrome is, how to prevent these types of injuries and how the employee can reduce exposure.

CAUSES AND EFFECTS OF CARPAL TUNNEL SYNDROME

C145 (10 minutes)

Educational program on what carpal tunnel syndrome is, how to prevent these types of injuries and how the employee can reduce exposure. Physical therapist Mike Hairston summarizes the information.

ES SQUARED

'08-'09 Video Catalog

CAUSES AND PREVENTION OF INDUSTRIAL SKIN DISEASES

C139 (24 minutes)

Discusses various forms of skin problems found in workers and the preventative measures that must be taken to avoid them.

CHAIN SAW SAFETY

C134 (9 minutes)

Chain saws are responsible for a great number of serious injuries and amputations each year. Employees often use chain saws for tree trimming, landscape maintenance and brush control, etc. Due to the hazards inherent in this valuable piece of equipment, proper safety training is a **MUST!**

CHAINS/SLINGS/HOISTS SAFETY

C102 (English - 15 minutes)

C142 (Spanish - 15 minutes)

This program discusses slings, lifting angles, safety procedures, precautions and inspection responsibilities as well as sling angles, overloading, nylon slings, chains, wire rope, hooks and general rigging safety.

CHEMICAL DEPENDENCY, WHAT IS IT?

C140 (5 minutes)

This video explains drug and alcohol dependency and how supervisors should interact with persons suspected of chemical dependency.

CHEMICAL HAZARDS IN CONSTRUCTION

C138 (13 minutes)

This video covers hazards, both immediate and delayed, from exposure to chemicals in the construction industry, including exposure to acids, alkalies, solvents, silica dust, asbestos, cedar dust, welding fumes and carbon monoxide. It describes the effective control program: 1. Recognition of the Hazard, 2. Evaluation of the Potential for Danger and 3. Control Measures.

CHEMICAL SAFETY

C143 (13 minutes)

Corrosives, toxics, flammables and reactives are discussed in this video and their safeguarding methods, and effects are reviewed to give the viewer an understanding of the importance of chemical safety and awareness.

ES SQUARED

'08-'09 Video Catalog

CONFINED SPACE ENTRY SAFETY

C124 (English - 19 minutes)

C151 (Spanish - 19 minutes)

A very good training program for persons required to enter confined spaces. Specific procedures and steps to take to prevent accidents are covered as well as informing employees of hazards found in confined spaces. Contains latest OSHA guideline information.

CONTROLLING THE EXPOSURE TO BLOODBORNE PATHOGENS

C147 (18 minutes)

Designed to aid in eliminating or minimizing occupational exposure to Hepatitis B Virus (HBV) or the Human Immunodeficiency Virus (HIV) and other bloodborne pathogens. Topics include personal protective equipment, hygiene, handling, removal and disposal of contaminated clothing and equipment. This video is excellent for a wide range audience.

CPR - CIRCULATION

C146 (6 minutes)

This dramatic video program demonstrates how to perform CPR to restore blood circulation to a victim whose heart has suddenly stopped.

CRIMINAL LIABILITIES OF SUPERVISORS IN SAFETY

C141 (5 minutes)

A "tell it like it is", hard hitting video to drive the message home to supervisors that they can be held criminally liable for failing to enforce company safety rules and standards.

CRANES AND CHAINS

CS222 (5 minutes)

Excellent program for anyone using overhead cranes/jib hoists. Discusses slings, lifting angles, safety procedures, inspection procedures and more.

DISCIPLINE - COUNSELING

D123 (5 minutes)

This video covers basic discipline and counseling procedures for management and stresses the importance for proper documentation.

DISCIPLINE - HOT STOVE THEORY

D126 (5 minutes)

Explains that the hot stove theory is a time tested method of insuring that all employees are treated equally and equitably, regardless of the rules.

ES SQUARED

'08-'09 Video Catalog

DISCIPLINE - PERFORMANCE STANDARDS

D124 (5 minutes)

This video explains the importance and need for evaluating employee performance and why it is so necessary in the work environment.

DISCIPLINE - SAFETY ENFORCEMENT

D125 (5 minutes)

One of the most neglected tools of safety performance is the enforcement of safety rules. This program explains liabilities and legal responsibilities.

DRUG/ALCOHOL PROBLEMS AND WHAT TO DO ABOUT IT IN THE WORKPLACE

D132 (15 minutes)

This chemical dependency video explains the effects of drugs such as alcohol, marijuana, cocaine and prescription drugs in relation to work efforts. Detection of chemical use on the job is reviewed and how supervisors can approach the abuser.

DRUG TESTING

CS224 (5 minutes)

This program is designed for those companies now using or considering the use of drug testing. It explains why testing/screening is necessary, general drug policies and how tests are conducted. Explains the length of time drugs stay in the human body and the types of drugs that can be detected.

DUMP TRUCK SAFETY AND OPERATIONS

D118 (9 minutes)

Dumptrucks can be a source of injury and vehicular accidents if operators are untrained. This video covers the safe operating procedures, maintenance, braking systems, dumping and pre-start up checks, the key to accident avoidance and minimal downtime.

EARTHQUAKE SAFETY

E101 (English - 11 minutes)

E128 (Spanish - 11 minutes)

An actual telephone call during the great Alaskan earthquake is used to dramatize the long duration, incredible force and extensive damage caused by a major earthquake. Provides information on what can be done to reduce employee exposure before, during and after an earthquake.

ES SQUARED

'08-'09 Video Catalog

EMPLOYEE PRODUCTIVITY

E124 (12 minutes)

Designed to help supervisors improve productivity which directly interacts with safety efforts. It reviews the necessary skills the supervisor needs to assure maximum performance of employees & safety efforts.

ERGONOMICS

E126 (6 minutes)

Excellent program for almost every occupation. This short video explains how to implement programs to reduce the risk of cumulative trauma disorders.

ELECTRICAL SAFETY

E129 (12 minutes)

This program meets OSHA requirements for training all personnel in electrical hazards. Mandatory requirements for training employees who not only work with electricity, but also for those who operate electrical equipment. Includes lockout/tagout information as well.

ELECTRICAL SAFETY

CS210 (5 minutes)

Covers basic electrical safety, i.e., two and three prong plugs, grounding, insulation, equipment and safety checks.

ELECTRICAL SAFETY

E119 (11 minutes)

Electrical shocks can kill or maim. This program will help you recognize electrical dangers at work and at home. Faulty tools and high-voltage wires are just some of the dangers shown. First aid for electrical-shock victims is also included.

EMPLOYEE SAFETY ORIENTATION

E107 (English - 14 minutes)

E108 (Spanish - 14 minutes)

Designed to train new employees in the general hazards to which they are exposed in most industries. Clothing, personal protective equipment, machine guarding, reporting accidents and employee responsibility in preventing injuries are reviewed.

ES SQUARED

'08-'09 Video Catalog

EVALUATING EMPLOYEE JOB PERFORMANCE

E121 (15 minutes)

This video answers what employee job performance reviews are and their purpose. Gives suggestions how preparation, review of job requirements, goals and expectations make evaluation easier for the supervisor as well as the employee.

EXPECT THE UNEXPECTED

E123 (15 minutes)

Industrial accidents happen when you least expect them. If you and your organization are prepared for accidents -- if you've planned, trained, and practiced -- you can save lives, minimize costs and resume normal operations quickly.

EYE PROTECTION

CS205 (5 minutes)

Eye hazards are in every industry. Wearing safety glasses is a hassle, particularly for those employees who normally don't wear glasses. This program stresses the need for proper eye protection.

EYE PROTECTION

E115 (English - 9 minutes)

E122 (Spanish - 9 minutes)

This video addresses the numerous eye hazards that may be encountered in the work environment, as well as protective devices available to avoid a serious eye injury.

FALLING AND BUCKING

F150 (22 minutes)

Falling trees can be dangerous. "If you're thinking about other things, you'd better hang up your saw...". That's the first message in this video about safe falling procedures. It includes tips about maintaining equipment, having a falling plan and the all important first aid kit.

FIT TEST RESPIRATORS

CS203 (5 minutes)

This excellent program explains how to achieve a proper fit and safe seal on respirators.

ES SQUARED

'08-'09 Video Catalog

FIRE EXTINGUISHER SAFETY

F101 (English - 10 minutes)

F133 (Spanish - 10 minutes)

We all have seen fire extinguishers around the shop, but the vast majority of employees have never even picked one up. This video details the inspection, maintenance and use of common fire extinguishers, including actual fire fighting techniques.

FIRE EXTINGUISHERS

CS221 (5 minutes)

This video demonstrates how to use fire extinguishers, and explains the classes of fire, "PASS" and important information for training fire extinguisher basics and improving fire prevention awareness.

FIRE PREVENTION IN SCHOOLS

S158 (9 minutes)

Covers basic training in fire prevention and electrical safety for all persons involved with a school, i.e. teachers, administrative personnel, maintenance personnel and junior and senior high school students.

FIRE PROTECTION

CS209 (5 minutes)

This program covers fire prevention basics including housekeeping, storage, maintenance and janitorial areas, chemicals and other flammable materials commonly found in business. It demonstrates the use of the "ABC" type of fire extinguisher.

FLAGGER SAFETY

F114 (10 minutes)

Personnel assigned to flagging have an important responsibility for controlling traffic. An untrained flagger can be a big liability. This video addresses the responsibilities and techniques for flagging on the job site.

FORKLIFT - BASIC OPERATING RULES

CS207 (5 minutes)

This video reviews the OSHA operating rules to remind employees of the basics with regard to operating a forklift. A video all forklift operators and supervisors should see!

ES SQUARED

'08-'09 Video Catalog

FORKLIFT - ENGINEERING PRINCIPLES

CS206 (5 minutes)

The principles of forklift engineering are an important part of understanding how and why forklifts operate. Without this training, operators may not fully understand why certain safety procedures are mandated.

FORKLIFT - EQUIPMENT MAINTENANCE

CS208 (5 minutes)

This program discusses the maintenance procedures for both electric and gas powered forklifts. Battery maintenance is also reviewed.

FORKLIFT OPERATOR SAFETY

F121 (English - 12 minutes)

F122 (Spanish - 12 minutes)

This video program stresses employee responsibility for safety and teaches the engineering principles, OSHA operating requirements, and equipment maintenance. Companies need qualified forklift drivers and this program will assist in assuring all requirements are met.

GENERAL SAFETY HAZARDS FOR CUSTODIANS

S154 (18 minutes)

Meets OSHA training requirements for school custodians in the general hazards to which they are exposed. Hand/power tools, electrical, machine operations, lifting, fire prevention, asbestos, personal protective equipment and more. Excellent program for improving safety.

GENERAL SAFETY HAZARDS FOR SCHOOL TEACHERS

S151 (16 minutes)

Meets OSHA training requirements in the general hazards to which high school teachers are exposed. Particularly useful for training experienced and inexperienced teachers in industrial safety in a school environment. Electrical, mechanical, lifting, ladders, accident prevention/reporting, chemicals and more.

GETTING CONTROL OF TIME

G108 (5 minutes)

This video gives basic tips and techniques to use time wisely and efficiently in order to be a more effective supervisor.

ES SQUARED

'08-'09 Video Catalog

GRINDING AND ABRASIVE WHEELS

G111 (12 minutes)

This video reviews standard safety rules when using grinding and abrasive wheels. Personal protective equipment, causes of personal injury, proper mounting procedures, maintenance and inspection is also discussed.

GROUND SKIDDING SAFETY

G107 (24 minutes)

Points to the major causes of ground skidder accidents and the high risk of injury and death for skidder operators when basic safe logging practices are ignored. It outlines the advantages and limitations of the three conventional ground skidding systems.

HAND/POWER TOOL SAFETY (GENERAL INDUSTRY)

H102 (12 minutes)

For anyone using hand or power tools, including general industry, construction and service related industries. Hammers, screwdrivers, wrenches, drills, saws and electrically driven tools are discussed.

HAND AND WRIST INJURY PREVENTION

H167 (10 minutes)

An excellent video which should be shown to all employees including office workers. This graphic video describes types of hand injuries and gives tips for prevention of injuries to your hands. The anatomy of the hand is explained to emphasize the importance of the hand functions. Carpal tunnel syndrome is briefly discussed also.

HANDLING PERSONAL PROBLEMS OF EMPLOYEES

H166 (5 minutes)

This video discusses the supervisor's responsibilities when working with employees whose personal problems effect performance.

HAZARD COMMUNICATIONS

CS200 (5 minutes)

Employees have a right to know about potential hazards in their working environment and employers are legally bound to communicate these potential hazards to their employees. This video meets OSHA training requirements for employee "right to know" programs. Included are material safety data sheets (MSDS), labeling, chemical hazards, and basic prevention techniques to avoid chemical exposure.

ES SQUARED

'08-'09 Video Catalog

HAZARD COMMUNICATION RIGHT TO KNOW

H108 (English - 13 minutes)

H135 (Spanish - 13 minutes)

This video details general employee "Right-To-Know" requirements, material safety data sheets (MSDS), and methods for meeting the "Right-To-Know" standards required by OSHA. Good video for introducing new employees to these standards.

HAZARDOUS FLAMMABLE MATERIALS

H111 (13 minutes)

This video tape supplements the Hazard Communication "Right-to-Know" program. Stresses chemical safety, static electricity, fire prevention, containers, labels, bonding, grounding and others.

HAZARDOUS SPILLS, LEAKS AND DRIPS CLEANUP

H174 (14 minutes)

Excellent program for all persons using oil, solvents and other hazardous materials. This video program explains clean up procedures, emergency action, hazardous waste and provides information to help control the effects of spills and cleanup operations.

HAZWOPER: IDENTIFICATION AND RECOGNITION OF HAZARDOUS MATERIALS

H176 (13 minutes)

Identification and recognition of hazardous materials are critical when you use, store, handle, transport and dispose of hazardous materials. Definitions and classifications of hazardous materials, storage of hazardous waste and safety of cylinders is discussed with proper guidelines to follow.

HAZWOPER: OBTAINING INFORMATION IN AN EMERGENCY

H170 (10 minutes)

Material Safety Data Sheets, shipping documents, contingency plans, regulatory agency and related references are discussed to inform the viewer about obtaining information in an emergency.

HAZWOPER: ORGANIZATIONAL CONTINGENCY PLANNING

H171 (9 minutes)

Designed for companies developing contingency planning for spills and emergency response. Reviews organizational structure, establishing a work plan. Lists important aspects of designing your own program and what to include in your contingency plan for response to emergencies.

ES SQUARED

'08-'09 Video Catalog

HAZWOPER: ORIENTATION

H173 (14 minutes)

Introduction to HAZWOPER, what it's all about and how companies may comply with the Hazardous Waste Operations Emergency Response training requirements that apply to organizations handling and using hazardous materials.

HAZWOPER: SAFETY RULES AND REGULATIONS

H177 (11 minutes)

Gives a brief overview of some of the statutes pertaining to HAZWOPER. An understanding of these statutes is imperative to the safe operation of employees working with hazardous materials.

HAZWOPER: TOXICOLOGY

H175 (9 minutes)

Toxicology is the study of toxic or poisonous substances. This program defines toxicity, acute and chronic effects and threshold limit values. Excellent video for anyone dealing with or near hazardous materials.

HEALTH CARE - BACK SAFETY FOR HEALTH CARE PROVIDERS

H178 (11 minutes)

Excellent program for all employees. Explains how the back works, body mechanics and how each employee can make the proper decision when lifting anything, even in awkward situations.

HEALTH FACTORS IN WELDING

CS212 (5 minutes)

Excellent video to educate welders on the potential health and safety concerns in this occupation.

HEARING CONSERVATION

H121 (9 minutes)

Backhoe's, breakers, tamps and pneumatic equipment are just a few sources of noise that can impair the hearing of public works employee. This video details the hazards of noise, and how to reduce exposure. Discusses personal protective devices also.

ES SQUARED

'08-'09 Video Catalog

HEARING PROTECTION

H155 (9 minutes)

This video looks at types of hearing protection for workers-earplugs and earmuffs -- and addresses factors that must be taken into account when choosing the right type and correct fit for individual use.

HEALTH FACTORS IN WELDING OPERATIONS

H116 (22 minutes)

Occupational exposures to the many by-products and fumes generated by the welding process are discussed. Due to the potential health risks welders are faced with, training and awareness are important.

HEAT STRESS

H125 (12 minutes)

This video demonstrates the dangers of heat related illness. Identifies the signs and symptoms of heat stress in addition to techniques for prevention of this potentially deadly issue.

HEAT STRESS

CS213 (5 minutes)

This video presentation identifies many of the signs and symptoms of heat stress and offers several techniques for prevention of this potentially deadly issue.

HOW TO COMMUNICATE EFFECTIVELY

H165 (5 minutes)

This program is an overview of the importance of developing and improving communication skills in order to increase efficiency and productivity.

HOW TO CONTROL ABSENTEEISM

H162 (5 minutes)

This program addresses employee absenteeism and explains how to apply control measures. It also gives suggestions on how to correct the problem.

HOW TO CONTROL TARDINESS

H163 (5 minutes)

This program explains how to control employee tardiness and gives suggestions to correct the problem.

ES SQUARED

'08-'09 Video Catalog

HOW TO HANDLE CHEMICALS IN A SCHOOL ENVIRONMENT

S159 (14 minutes)

Meets OSHA and EPA requirements explaining labeling, storing, using, handling and disposing of hazardous chemicals and materials.

HOW TO PREVENT SEXUAL HARASSMENT

H112 (10 minutes)

This video defines sexual harassment, examines the consequences when harassment is identified and helps employers train and sensitize their employees to the problem in order to prevent it.

HOW TO PREVENT SEXUAL HARASSMENT

H112 (10 minutes)

This video defines sexual harassment, examines the consequences when it is identified and helps employers train and sensitize their employees to the problem in order to prevent it.

HUMAN BEHAVIOR

CS201 (5 minutes)

This video program explains unsafe acts to employees, written counseling and information useful to supervisors and managers in their efforts to eliminate accidents and injuries in their place of employment.

HUMAN BEHAVIOR - REDUCING UNSAFE ACTS

H133 (English - 13 minutes)

H181 (Spanish - 13 minutes)

The vast majority of injuries are caused by unsafe acts of employees. This program explains unsafe acts, verbal and written counseling. Provides general information to employees and supervisors on how to control unsafe acts.

I FELT COMFORTABLE

I124 (25 minutes)

The true life story of Randy Fellhoelter's close encounter with death after intentionally violating safety work rules and procedures. Although Randy's accident was caused by his accidental contact with 7,200 volts of electricity, the video focuses on how individual behavior plays a major role in accidents and/or accident prevention. The specific details of the accident were omitted from the video to draw attention to the conditions that led up to the tragedy that changed Randy's life forever. **WARNING: THIS IS A VERY GRAPHIC VIDEO.**

ES SQUARED

'08-'09 Video Catalog

IMPROVING TIME MANAGEMENT FOR SUPERVISORS

I118 (17 minutes)

The goal of any time management program is to improve the productivity of your employees. This video offers suggestions for determining where your time goes, delegation of jobs, following time budget plans and correcting the cause of poor time management. It also offers tips for recovering from poor time management.

INVESTIGATING INDUSTRIAL ACCIDENTS

I116 (18 minutes)

This video demonstrates techniques for identifying the contributing factors in an accident in order to prevent the same type of accident from happening again.

LADDER SAFETY

L104 (8 minutes)

Ladders are a tool used daily, and too often without much forethought relating to an accident. In fact, ladders are the root cause of far too many injuries from falls. This video details the requirements for safe ladder use. Covers make shift ladders, electrical hazards and safety inspections as well.

LEGAL RESPONSIBILITIES OF SUPERVISORS IN SAFETY

L125 (5 minutes)

Supervisors need to become more aware of their legal responsibilities. This video program explains the four basic elements used to legally judge the effectiveness of any safety program.

LIFTING SAFELY (Retail Industry)

R122 (10 minutes)

This is an in-depth look at safe lifting in the retail industry. Discusses the most common types of lifting hazards and demonstrates specific techniques to lift safely. Good video for employees before an accident occurs and for employees who need retraining after a back injury.

LIFTING SAFELY - PREVENTING BACK INJURIES

L110 (English - 12 minutes)

L111 (Spanish - 12 minutes)

This video teaches employees how to avoid back strain by explaining how the back functions and teaches proper lifting techniques. Demonstrates how to lift safely in a variety of different situations. Understanding how the back works, body and back mechanics, stretching, strains, etc.

ES SQUARED

'08-'09 Video Catalog

MACHINE GUARDING

CS223 (5 minutes)

This is a program for employees as well as supervisors. Discusses fixed and adjustable enclosures and other devices such as interlocks, photo cells and more. Program emphasizes that machine guarding is not fool proof and requires employee responsibility when working with machinery and moving parts.

MACHINE GUARDING

M123 (13 minutes)

This is a good program for employees as well as supervisors. The program emphasizes that machine guarding is not fool proof and requires employees to be responsible as well.

MAINTENANCE PERSON SAFETY

M101 (14 minutes)

Maintenance persons are professionals that must be knowledgeable in many subject areas. Although this video presentation is not exclusively about electrical safety, it does cover many electrical safety areas that maintenance persons are faced with.

MANAGEMENT SAFETY - THE BASICS FOR AN EFFECTIVE SAFETY PROGRAM

M117 (10 minutes)

For middle management and supervisors. This program covers how supervisors are the key to any program and how to provide safety leadership. Complete step by step program for developing and implementing an effective safety program. These steps when implemented, have reduced accidents and injuries by 50 to 75%.

MANAGEMENT THEORIES

M125 (15 minutes)

Examines theories of human behavior studied by Hawthorne, Herbert, Maslow, and McGregor. Although each supervisor is unique, these basic theories apply to each and can be modified to suit individual needs. This video discusses behavior modification, attitude development and motivation.

MOVING AND LIFTING

M124 (5 minutes)

Describes in detail how to properly move, pad, and secure injured victims for positioning and placement onto spine boards or stretchers.

ES SQUARED

'08-'09 Video Catalog

MSDS'S AND CHEMICAL SAFETY FOR CUSTODIANS

S153 (10 minutes)

Meets OSHA and training requirements for employee "Right to Know" programs. This program addresses the needs of custodians and maintenance personnel.

MSDS'S AND CHEMICAL SAFETY FOR TEACHERS

S152 (10 minutes)

Topics include chemical hazards, basic techniques to avoid chemical exposure, material safety data sheets (MSDS) and labeling. Meets OSHA Right to Know laws.

MSDS'S AND CHEMICALS IN RESTAURANTS

R119 (English - 10 minutes)

R120 (Spanish - 10 minutes)

Designed to meet the OSHA requirement to inform and train employees in chemical/hazardous materials used in the restaurant industry workplace. Explains Material Safety Data Sheets, labeling and basic safety.

NATIONAL DRIVING TEST - VOLUME I

N106 (48 minutes)

Hosted by Christopher Reeve, this video addresses 25 questions that could save your life while driving in your vehicle. Traffic scenarios are posed and the viewer is asked to answer multiple choice questions. Explanations are given with each answer.

NATIONAL DRIVING TEST - VOLUME II

N107 (48 minutes)

Hosted by Robert Urich, this video will test you on your knowledge of the road. The viewer is asked to answer multiple choice questions regarding traffic safety and the reasons why are given with each answer.

NFPA HAZARDOUS MATERIALS LABELING REQUIREMENTS

N109 (10 minutes)

The Diamond Labeling System that the NFPA has standardized for hazardous materials and chemicals is reviewed in this video. Excellent program to train employees label and sign identification.

ES SQUARED

'08-'09 Video Catalog

OSHA INSPECTION PROCEDURES FOR HAZARD COMMUNICATIONS

O120 (17 minutes)

This new video reviews OSHA's guidelines for compliance officers from which to determine the effectiveness of the written Hazard Communication Plan, training efforts, labeling and MSDS requirements.

OSHA RECORDKEEPING

CS228 (5 minutes)

This video is designed for personnel responsible for safety and insurance related reports. It explains accident investigation, proper completion of records and follow up paperwork. Good program for administrative personnel, supervisors and those persons charged with maintaining safety and training records.

PERFORMANCE EVALUATIONS

P116 (5 minutes)

This program covers basic employee performance, praise, reprimands, documentation and how to improve productivity. Also, it shows how to improve efficiency and productivity through employee evaluations.

PERSONAL PROTECTION

CS214 (5 minutes)

This video explains the basics of personal protective equipment and is an excellent refresher program.

PERSONNEL SAFETY - DISHWASHERS AND JANITORS

R127 (English - 12 minutes)

R128 (Spanish - 12 minutes)

Designed specifically for restaurant personnel and meets OSHA training requirements. Their daily responsibilities include many hazards, which can be extremely serious.

POISONOUS PLANTS

P119 (5 minutes)

This program helps employees recognize and identify poisonous plants. Good video for public agency workers, landscapers and utility personnel.

ES SQUARED

'08-'09 Video Catalog

PREVENTING SLIPS AND FALLS

P118 (English - 14 minutes)

P117 (Spanish - 14 minutes)

Provides basic prevention techniques to avoiding slips and falls. Identifying and correcting hazards, floor maintenance and good housekeeping are some of the items discussed in this informative video.

PROCEDURES FOR ASBESTOS REMOVAL

P115 (10 minutes)

This is an excellent program for businesses with maintenance personnel intending to remove and dispose of asbestos from their facility. It covers the planning and work procedure stages, work sight preparation, and necessary safety precautions throughout the removal and disposal.

RECORDKEEPING REQUIREMENTS FOR WORKPLACE RECORDABLE INJURIES

M114 (11 minutes)

Good program for administrative personnel, supervisors and those people charged with maintaining safety and training records. Covers accident investigation, proper completion of records and the procedure for hospital/clinic visits and follow up paperwork.

RESPIRATOR USE

CS218 (5 minutes)

Respiratory protection is necessary for many tasks to protect us from a variety of dusts, fumes, mists and gases. This program demonstrates the different types of respirators and addresses the need and use of common respiratory protection.

RESPIRATOR USE

R108 (9 minutes)

Respiratory protection is necessary for many tasks in public works. Pesticide/herbicide applicators, sandblasting, painters and treatment plant personnel are just a few. This video addresses the need and use of common respiratory protection found in Public Agencies.

SAFE HANDLING OF PESTICIDES

S163 (19 minutes)

Pesticides are used in many agricultural and silvicultural operations. Discusses selection, use, storage and personal protective equipment.

ES SQUARED

'08-'09 Video Catalog

SAFE LIFTING

CS219 (5 minutes)

Provides an understanding of how the back functions, lifting techniques, as well as demonstrating how to lift safely in a variety of situations.

SAFE USE OF CHAINSAWS

S162 (17 minutes)

This video gives instruction in the safe use and handling of chainsaws - valuable for anyone falling or bucking: amateurs, students and first-time users as workers. Describes maintenance, falling and bucking techniques and use of safety equipment.

SAFETY AND THE YOUNG WORKER

S164 (11 minutes)

This video addresses workers between 18 and 24 years of age. Discusses why one out of ten employees in that age group are injured on the job. Covers a wide range of jobs and duties, supervisors' responsibilities as well as instilling the proper attitude towards the job in the employee.

SAFETY AUDIT

CS217 (5 minutes)

This video is designed for the safety manager. It discusses ways to evaluate the effectiveness of your safety program and how to make appropriate improvements and corrections.

SAFETY COMMITTEES

CS204 (5 minutes)

Effective safety committees may be difficult to achieve based upon the many committee failures experienced in all industries. Safety committees can be very effective if they are properly formed and implemented. This program explains how to make your safety committees effective.

SAFETY ORIENTATION IN AN OFFICE ENVIRONMENT

S184 (10 minutes)

Basic office safety such as slips and falls, ladder/stairway safety, electrical, and good housekeeping are discussed in this informative video. Employee responsibility for safety in the office is stressed.

ES SQUARED

'08-'09 Video Catalog

SAFETY RESPONSIBILITIES

S166 (5 minutes)

Supervisors are the key to safety, but do not always understand their role in accident prevention. This program explains responsibilities, legal liabilities, and obligations for safety performance.

SETTING THE EXAMPLE

CS215 (5 minutes)

Shows that being a good example is a much better training method than the old "do as I say, not as I do."

SLIPS AND FALLS

CS230 (5 minutes)

This short program provides basic prevention techniques for avoiding slips and falls. Identifying and correcting hazards, floor maintenance and good housekeeping are some of the topics discussed.

SOLVING CHEMICAL DEPENDENCY

S165 (5 minutes)

Explains the steps supervisors may take when work performance, which may be drug or alcohol related, falls below acceptable standards due to suspected chemical dependency.

STRESS RELIEF

S181 (10 minutes)

Do you really understand what stress is? Before you can avoid or relieve stress, you must understand what it is and how it affects you. This program discusses how to relieve stress through relaxation and exercise.

SUPERVISOR'S FORKLIFT TRAINING PROGRAM

S141 (25 minutes)

Humorous, and somewhat unique approach to explain how to develop and implement a forklift training program. Although this program may not be for all organizations it does present many important facts to consider.

SUPERVISOR'S GUIDE TO ACCIDENT REPORTING

S142 (12 minutes)

Demonstrates the need to properly complete the accident investigation and why the information is important.

SUPERVISORS AND EMPLOYEE COMMUNICATION

S185 (15 minutes)

Communication is the foundation of leadership. This video points out the positive and negative communication skills for supervisors and ways to get employees to respond. Listening, being responsive and talking things out make up good communication skills.

SURVIVAL FIRST AID

S161 (35 minutes)

This hard hitting information packed program has been designed for the work environment and should be seen by all employees! It is an excellent program for construction and manufacturing industries alike. It reviews conducting an examination for life threatening injuries, performing cardio-pulmonary resuscitation, controlling bleeding, evaluating the level of consciousness and more.

TEAM BUILDING

T148 (5 minutes)

This video reviews the basic components of team building that can work in any organization. Expectations, preparation, training, motivating team members and communication are all key points in team building.

THE 25 MOST COMMONLY CITED OSHA VIOLATIONS

T152 (8 minutes)

Explains the most commonly cited violations, what the violations are and how to avoid citations for these types of violations. Excellent program for managers, supervisors and employees to guide them in better OSHA compliance.

THE SUPERVISOR'S RESPONSIBILITY

T146 (5 minutes)

Basic responsibilities explained to reinforce supervisor's understanding of what is needed to improve leadership skills and achieve goals of the organization.

TRAFFIC CONTROL

T151 (15 minutes)

Poor traffic control leads to accidents and lawsuits. Excellent program addressing all aspects of traffic control common to contractors and public agencies. Reviews signing, cones, warning devices and flagging.

TRAINING NEW EMPLOYEES TO MEET SAFETY STANDARDS

T149 (5 minutes)

This program contains the information needed to train new employees in the general hazards to which they may be exposed in the workplace.

TRAINING RESPONSIBILITIES

T147 (5 minutes)

This program explains that regardless of who actually trains the employees, it remains the supervisors responsibility to ensure that they are properly trained.

TRUCKING INDUSTRY: HAZARD COMMUNICATION

T154 (10 minutes)

Required by OSHA for training all employees in chemical/hazardous materials used in the workplace. This video explains Material Safety Data Sheets, labeling, and basic safety when using these materials.

ULTIMATE DRIVING CHALLENGE

U103 (48 minutes)

Multiple choice questions encourage the viewer to participate in this fast paced video to learn how to recognize road hazards and risks such as avoiding a head-on collision, gaining control of a skidding car, negotiating turns, roadway shoulders, motorcycles and school busses.

UNIVERSAL PRECAUTIONS - INFECTION CONTROL (HEALTH CARE INDUSTRY)

H180 (8 minutes)

Designed for health care providers, but is an excellent program for engineering, custodial, security, administration and other personnel who provide services in the health care environment. Good refresher for nursing, lab and other providers who normally receive additional universal precaution training.

WAREHOUSE/DISTRIBUTION CENTER SAFETY

W120 (10 minutes)

Excellent for those employees working in a warehouse environment. Safe lifting, box cutter safety, material handling, personal protective equipment and general accident prevention techniques in the warehouse.

WASTE MINIMIZATION

CS202 (5 minutes)

The name of the game in hazardous waste is "minimization"! Businesses reducing their waste stream through adoption of a minimization program find their waste management costs significantly declining.

WHAT SUPERVISORS SHOULD DO ABOUT SAFETY

W122 (15 minutes)

As a safety supervisor, you are responsible for everything your employees do or fail to do. Trainers of other personnel may be assigned the job of required training, however, the supervisor remains responsible to see that all employees receive the training and are able to understand this confusing information. This video reviews safety counseling, written policies, training, safety inspections and enforcement.

WHO, WHAT, WHEN, WHERE AND HOW TO TRAIN EMPLOYEES

W123 (13 minutes)

This video encourages training, not only for the employee, but also for the supervisor so he or she can understand the basis of each employees job. Initial employee safety orientation is stressed and training tips are given to offer a smooth running and well documented safety program.

YOUR SAFETY COMMITTEE IN ACTION

M116 (10 minutes)

In many cases, safety committees become a burden rather than providing true benefit. This program shows how to make them effective without wasting valuable time or effort.
